

Langley Separation and Process is pleased to announce that we now have a 25 Cubic Foot Capacity 100 PSI design Recessed Chamber Filter Press available for rent.

Rental Filter Press supply to include:

- Feed and discharge manifold valves and piping
- AOD Feed pump and compressed air by customer.
- Press includes blanking plate. (Field adjustments on press volume can be easily done with the blanking plate so filtering capacity can easily be adjusted.)
- Two (2) self-tipping cake dumpsters that go under the press

Langley Separation can also supply the filter cloths per the attached plate drawing. The filter plates are set up for using gaskets, but they can also be used without the gaskets (drape over filter cloth design).

Start-up assistance and operator training is also available from Langley Separation.

Typical rentals are provided on the basis of a one (1) month minimum rental period with an option for daily rental after the first month paid rental.

Shipping location is Houston, TX. All freight and permit charges to be paid by customer.
